

If I were in charge of the world...

I would cancel trash on the street.

I would cancel bulles.

I would even cancel dog bites.

If I were in charge of the world...

there would be crazy clothes.

There would be animal crossing in every house.

There would even be nice people only.

If I were in charge of the world...

we would not have spaghetti.

We would not have stress.

We would not have rain

or "hate."

We would not even have sad people.

If I were in charge of the world...

I would have 10 cats.

And a person who makes mistakes

and sometimes has a stomach ache

would still be allowed to be in charge of the world.
