

The Reality of Hope

To sorrow

I say hello and goodbye

To hope

Hope is a weakness

It is not possible that

It would make me stronger.

I have given up

I cannot say that

I have a bright future waiting for me

I believe

I was meant to be like this.

Without a chance

Give up

Don't

Believe in change

This is the truth.

Hope does nothing

In the darkest times

Even if they say that

Hope is important

I know

to fear the wish for something better

It is wrong

To hope for more

I will tell everyone

All is lost

It is a lie to believe

There is hope

This is reality
